MEET THE STARTUPS

AINA

Swipe. Build. Book. AINA uses AI to convert social media inspiration into curated, bookable travel itineraries tailored to you.

CardioCare

CardioCare is a biotech start-up developing at-home cardiovascular risk screening kits. Our triage tools, paired with a digital health app for ongoing risk monitoring and management.

eek!Finance

The logo for eek!finance is the text "eek!finance" in a bold, black, sans-serif font. The text is centered on a light green rectangular background.

eek!finance is a digital platform aimed at demystifying personal finance for the "financially figuring it out" adult.

FABC

The logo for FABC is the letters "FABC" in a bold, black, sans-serif font. The letters are arranged in a 2x2 grid, with "FA" on the top row and "BC" on the bottom row. The background is a light pink color.

FABC designs healthy, comfortable earphones engineered for every ear—safer sound, better fit, no compromise. They were born from an independent research into the health risks of earphone use.

MEET THE STARTUPS

Gyre Energy

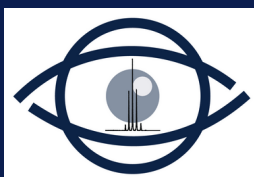

Gyre Energy cuts costs for cooling intensive operators. We're solving one of energy's most pressing challenges, cooling, with a mix of both hardware and software technologies.

Hands of Hope Africa

Hands of Hope Africa empowers underserved Ugandan women through vocational training and microloans to launch sustainable, income-generating small businesses.

ionSIGHT

ionSIGHT's mission is to enable better drug discovery using high throughput screening with machine learning-enabled native mass spectrometry.

Mayacode

MayaCode is building multilingual AI infrastructure to digitalise refugee onboarding for governments and match refugee talent to real jobs.

MEET THE STARTUPS

Mina

Mina is a modern beverage company dedicated to crafting mindful, non-alcoholic drinks that welcome everyone to refresh, reconnect, and enjoy.

SharedGenes

SharedGenes is the first AI-powered social network connecting individuals with rare and chronic diseases for personalised support, shared experiences, and real-world impact.

SMRTmeds

SMRTmeds is a venture developing AI-powered tools to predict immune durability after vaccination, using biomarkers to personalise booster schedules.

Talentls

Talentls is an AI-powered recruitment platform automating CV tailoring, interview prep, and candidate matching for significantly faster, cost-effective job-seeking processes.

MEET THE STARTUPS

Tera NanoTech

Tera NanoTech specialises in developing state-of-the-art terahertz imaging solutions using nanotechnology, offering the only solution for 100% plastic waste sorting.

Trialex

Trialex is a participant-centric platform that revolutionises clinical trial recruitment, retention, and diversity through accessible education, engagement, and data-driven insights.

Tribela

Tribela are Redefining social media through thoughtful design and innovative technology, we aim to create a safer, more empowering digital experience.
